EdTech startup

## ODS

## Team

- Alejandra Carrasco, Founder - CEO
- Milagros Alayo, Founder - Marketing
- Javier Carrasco, Founder - CTO
- Arturo Pazos, chief project
- Oscar Huapaya, chief design
- César Palomino, CFO

## Problem

The lack of access to technological tools and ICT training for teachers in public educational institutions is limiting the development of cognitive skills in students, delaying their adaptation to a society in continuous technological evolution.

## Impact

There are more than 8 million school-age children in Peru, 6.3 million of whom study in public schools and 2.5 million rural children do not have access to a computer.

## Solution

WAWA, the first laptop developed in Peru, which is powered by a portable solar panel, is made with eco-friendly material and uses free software (Linux/Android); aimed at democratizing access to technology and education for children and young people in Peru.

## Business model

- Sale of WAWA Laptop equipment/sale of SBC boards.
- Wawa Laptop Integral Action Plan (training in soft and technological skills).
- Patent registration granted by INDECOPI.

## Awards and representations

- Ambassadors of the Special Bicentennial Project.
- Beneficiaries of the 7th Generation of StartUp Peru.
